PR/N: the author left a note here, but as it was a terse list of three synonyms of the word, I'll elaborate a little. He tells us that the word must not be understood only as the customary usage of a "disaster", but in the original sense from Greek tragedy, a "denouement", i.e. a dramatic event that initiates the resolution of the plot, or the resolution itself (frequently calamitous). It may also mean simply an "ending".

Splicer

(Certified Photoshop magician.)

Wanna redraw *DICE* with Fábio?

As you know, we have a main back-up (Jun), a few junior ones (Slav Kolev, Goldsonic, Gabriela) and the occasional help of Solitario no Fansub and others.
Well, Fabio's life has gotten a little busier these days. While he has performed superbly as always, and we are mostly in sync with Korea or at most one chapter behind, if he had a colleague working on the series in a weekly basis, like Alice last year, we could have fewer delays and ***maybe*** earlier releases. Are you interested? If you are, please contact me at splicer.nil@gmail.com.
A warning, though: you'll be tested (just one or two pages, but very hard ones). Furthermore, you'll be expected to be able to work during weekdays,

ALL OF THIS IS CHANCE, ANYWAY...
SO, IF I GET A BETTER OPPORTUNITY TO SAVE NANI...
I...
WILL BET ON THAT!
